

# TOWN OF BUENA VISTA CONSTRUCTION WATER PERMIT

The undersigned hereby agrees to the following:

- A. This permit is issued to allow the withdrawal of water from a Town of Buena Vista fire hydrant with the use of a hydrant meter. **A hydrant meter must be used in order to take water from Town hydrants.** If you do not wish to use a hydrant meter, please contact Public Works at 719-395-6898 or [bvpwadmin@buenavistaco.gov](mailto:bvpwadmin@buenavistaco.gov) to obtain a bulk water account to withdraw water from the water fill station at Public Works. This Construction Water permit is valid until December 31st of the calendar year and must be renewed annually. A Construction Water Permit may be considered null and void, depending on available water or if misuse is discovered. **Misuse would be: drawing water from any source of the Town's Water Service Area to be used for anything other than construction within the Town of Buena Vista Water Service Area or non-compliance with reporting requirements.** In the event of a Stage III water warning, all Construction Water Permit holders will cease drawing water from Town services.
- B. The fee assessed shall be one hundred dollars (**\$100.00**) for the permit, plus four dollars and twelve cents (**\$4.12**) for every one thousand (1,000) gallons of water, or portion thereof, drawn in excess of one thousand (1,000) gallons. One thousand gallons of water will be included in the permit fee. Water usage will be billed to the contractor upon return of the meter. Two checks, made payable to the Town of Buena Vista, shall be submitted at the time the permit is submitted: one for the permit fee and one used as a refundable security deposit on material provided by the Public Works Department. Deposit amounts are listed in the chart below. The security deposit will be returned to the contractor upon receipt and inspection of such materials and receipt of payment for water used. Only when materials are found to be damaged or not returned will the security deposit be used to replace materials provided by the Public Works Department. When no Town-owned hydrant meters are available for rent, a privately owned hydrant meter may be used, once the meter has been certified by the Water Department. No deposit will be required in this instance.

Quantity	Item	Deposit Amount	Total Amount
	2 ½" Fire hydrant meter	\$1,200.00	
	2 ½" Fire hydrant valve	\$150.00	
	Fire hydrant wrench	\$25.00	
	National/Standard Adapters	\$35.00	
	1 ½" Brass nozzle	\$50.00	
	1 ½" Fire hose - 50 ft	\$95.00	
	2 ½" Fire hose - 50 ft	\$155.00	
	2 ½" x 1 ½" adapter	\$35.00	

Please state the purpose of this permit and location/s of use
